IT'S LIKE STARTING LIFE OVER AGAIN

Waterbury Citizen Thought His Indigestion Was Incur-

"The best proof I can give that Tanlac was the right thing for me is the way it has rid me of my troubles and is bulding me up," said Joseph Peters, living on Middlebury Road, Waterbury, Conn.

"I had been suffering from indigestion for five years and as nothing helped me I thought I was always going to have it. About a month ago I came across a statement from a man in Bridgeport who I happened to know had suffered with a case of stomach trouble very much like mine and who told about how well he feit after taking Tanlac.

"Well, I was then too sick to work. I had just finished my lunch—a small bowl of plain soup and a half-silce of rye bread—and was right then suffering terpibly from indigestion. Right after this I bought my first bottle of Tanlac and in less than a week I felt my stomach getting better.

least han a week I felt my stomach getting better.

"Four bottles of Tanlac has made me feel as if I were starting life all over again. The first real meal I was able to eat, after I got rid of indigestion, was the happlest time of my life, and now I am eating, the same kind of meals every day. Up to the present time I have gained twelve pounds and my friends all want to know how I have picked up so much during the hot weather. I feel so good over what Tanlac has done for me that I talk about it to everybody."

Tanlac is sold in Norwich by National Drug Stores Corp., and Taftville Pharmacy and in Plainfield by F. L. Mercier; Charles R. Carey, Jewett City, Conn.

men's votes and 300 women's votes. This was an average of 210 an hour and at that rate the total vote would have reached but little over 2300, or less than fifty per cent. of the total. This vote, however, was heavier than Monday was slow and at 10 o'clock the only 720 had voted. Both the republican and democratle headquarters were busy checking up the lists and caring for their voters and the vote came in heavier from this time on.

During the noon hour in spite of the downpour the vote was heavy. At 1 o'clock the figures showed that 1710 voters had cast their ballots, 1080 men and 200 women. At this rate the total voter would reach about 3,000 for the day. At noon, Moderator, Judge Otto B. Robinson had lifted but six votes which had been mutilated.

Voting speeded up during the late afternoon as usual and at 3 o'clock the vote stood 1450 men and 950 women, a total of 2400. Voting speeded up during inhe last two hours and when the polls closed at 5 o'clock the total vote was announced as 3125 or 61 per cent. of the total vote of the town which is 5,104 according to the voting lists.

The women's vote was lessened somewhat during the day owing to the wear and the county.

Your old methods of teeth cleaning

See what this new way does. Watch your teeth whiten — note how clean they feel. Millions have learned in this way how much film removal means. It is something that you should know.

You must fight film

Your teeth are coated with a viscous film. It clings to the teeth unless you combat it, gets between the teeth and stays.

It forms a dingy coat which dims the luster of the teeth. It is the basis of tartar. It holds food sub-stance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Thus most tooth troubles are now traced to film. And, despite the daily brushing, very few escape them. The old brushing methods do not effectively fight film.

New ways to combat it

Dental science has now found ways to combat film. The methods are embodied in a dentifrice called Pepsodent. It has proved so effective that leading dentists everywhere are now advising it. And mil-lions of people have already adopted it. Pepsodent, with every use, brings five desired effects. It attacks the film in two efficient ways. It keeps teeth highly polished. It stimulates the salivary flow—Nature's great tooth-protecting agent.

It multiplies the starch digestant in the saliva. That to digest the starch deposits which cling to teeth and often form acid. It multiplies the alkalinity of the saliva. That to neutralize the acids which cause tooth decay.

Modern authorities regard these effects as essential aids to Nature, in view of the average diet. To bring those effects twice daily means such protection as you have not known before.

See and feel them

The results can be seen and felt. They are delightful, and this 10-day test will bring them 20 times.

Send the coupon for it. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear. Watch the other good effects, and the book we send you will tell you what they mean.

Do this now in justice to yourself. Learn how much this new-day method means to you and yours.
